

*What is the REAL  
price of a  
fur coat ?*

Bobcat Kitten. Photo: Hope Ryden

Few people realize the terrible price in pain and fear paid by animals trapped for their fur. In the following photographs, you'll see step by step, the widely accepted methods used to obtain wild furs.

**T**o make a fur coat from wild animals, catch as many as you can in steel jaw leghold traps.

**B**eat and stomp them to death.

**D**iscard the victims caught by mistake.

Fawn

Golden Eagle

**I**f a trap has nothing but a foot in it . . .

Set it again.

Maybe the next animal won't gnaw his foot off to escape before you get there.

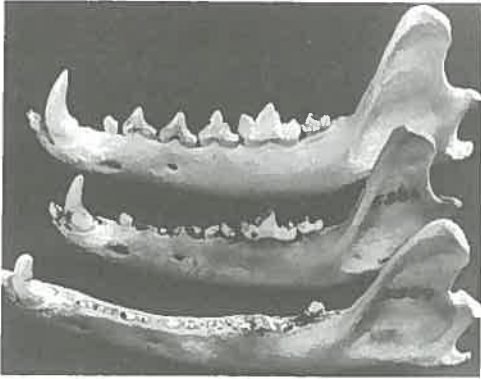

Photo: Jan England

**W**hen the animals gnaw the trap breaking their teeth on the steel, the pelt still looks the same.

The customer will never know.

**I**f you catch a dog or cat let them go.

Their owners can take them to a vet for amputation of their gangrenous legs.

---

You can help stop this cruelty. Write for a free information packet on the measures pending in Congress and the European Community to end use of steel jaw traps.
